

# Cutting-edge digital infrastructure

The Fiber to the Home Infrastructure currently covers almost 100% of the Region, making the system available to everyone in the Region regardless of if they live in a dense urban environment or rural areas. The Region has a dense data center and telecom infrastructure, making it the 4<sup>th</sup> densest region in this sector in Europe for these types of uses.

## A smart and connected region

Launched in February 2013, the High-Speed Broadband France Plan aims to cover the entire country by 2022, by proposing high-speed internet access to all houses, businesses and government departments.

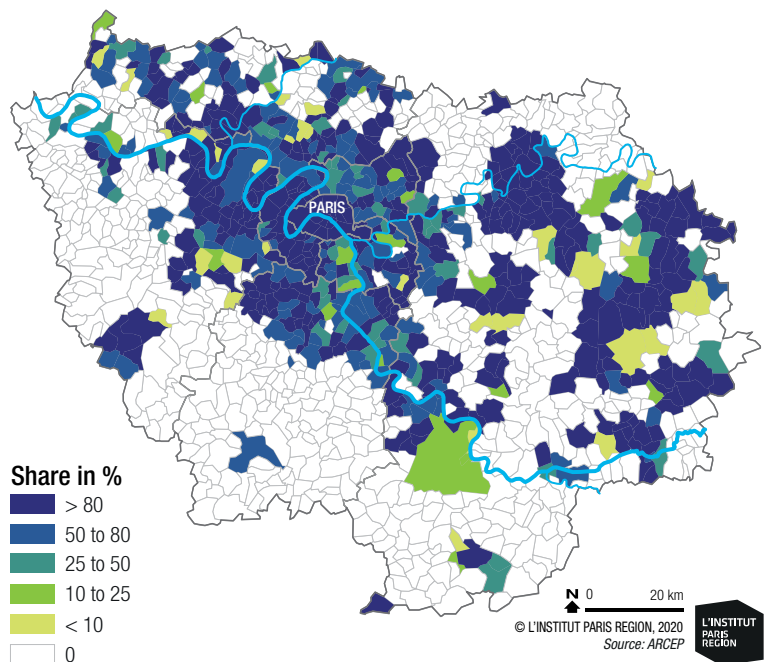

The Paris Region aims to be the first region in Europe to be entirely equipped with fiber-optic cables by 2020/2025.

## Reliable telecommunications and networks

- 4G Mobile telephony**
- 4 operators
- 99.8% of the population is covered

ARCEP

**FttH deployment in Paris Region**  
**Share of potentially connected premises at the city level**  
 State of the art 1<sup>st</sup> quarter 2019
